

**Universal mounting plate**

Mounting of barriers at the end panel of an end wall is often difficult concerning the thickness of the concrete wall. Spinder has developed a universal mounting plate which fits on all hinge and locking points.

Also suitable for mounting 2" tubes on wooden stud.

**Major characteristics:**

- Suitable for all hinge and locking points;
- Suitable for mounting clips 48, 60, 76 mm and threaded straps 48, 60, 76,  $\varnothing$ 80 mm;
- It prevents damage on concrete walls;
- Solid, because of steel plate of 8 mm thickness;
