Meadow Mattress

The meadow mattress is soft and extremely resilient. For this reason the cows lie down comfortably for a long period of time.

Each mattress is composed out of a high quality latex foam and 3mm thick waterproof Dunlop top rubber cover which has a non-skid top surface giving the cows grip when laying down and rising from the cubicle.

Major characteristics:

- extremeley soft & resilient
- Dunlop waterproof topcover
- Non skid top surface
- Quality latex foam sheets
- Continuous system sealed on all sides
- 10 year manufacturers warranty
